Limited Review Report

To: The Board of Directors of Orascom Telecom, Media and Technology Holding – S.A.E

Introduction

We have reviewed the accompanying condensed consolidated interim financial statements of Orascom Telecom, Media and Technology Holding – S.A.E which comprise of condensed consolidated interim statement of financial position as of June 30, 2015 and the related condensed consolidated interim statements of income, changes in equity and cash flows for the six months period then ended, and a summary of significant accounting policies and other explanatory notes. Management is responsible for the preparation and fair presentation of the condensed consolidated interim financial statements in accordance with Egyptian Accounting Standard No. (30) "Interim Financial Reporting". Our responsibility is to express a conclusion on these condensed consolidated interim financial statements based on our review.

Scope of Review

Except as explained in the following paragraph, we conducted our review in accordance with Egyptian Standard on Review Engagements (2410) "Review of Interim Financial Statement Performed by the Independent Auditor of the Entity". A review of condensed consolidated interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Egyptian Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Basis for Qualified Conclusion

As disclosed in more details in note (22), the accompanying condensed consolidated interim financial statements as at June 30, 2015 included the subsidiary's balances of CHEO Technology "Koryolink" domiciled in North Korea. The net assets of Koryolink equivalent to EGP 6.4 billion of the Group's consolidated net assets amounting to EGP 8.9 billion. Koryolink assets include cash balances denominated in North Korean currency equivalent to EGP 4.9 billion (are reported within non-current financial assets in the consolidated interim financial statements due to restrictions imposed on transfers). The subsidiary is facing financial and operational obstacles due to the following reasons; firstly, because of the international sanctions imposed on financial transactions and transfers, the import and export of goods and services, including goods and services required to operate, maintain and develop mobile networks which has resulted, lately, in increasing severance of long term restrictions on the ability of the subsidiary to transfer realized profits to the Group, secondly; the absence of a free-floating currency exchange market in North Korea, whereas the Group's management has no exchange rate available other than the official exchange rate announced by the Central Bank of North Korea which is being used by the Group's management in translating the subsidiary's financial statements, however, the currency exchange is not available at such official rates unless a prior approval from the authorities is obtained, thirdly; the North Korean Government, a shareholder in the subsidiary, has launched

a competing telecom operator wholly owned by the Government. In the view of management the existence of such obstacles and restrictions did not affect the Group's ability to control the subsidiary's activities, in addition management is looking for solutions to the obstacles and its effect through continuing discussions with the Korean party including merging the subsidiary "Koryolink" with the second local telecom operator, wholly owned by the North Korean Government. According to the Group's management there is an initial consent from the Korean party regarding merger. This may lead to the presence of possible future solutions for some of the obstacles according the management's estimates.

In light of the aforementioned restrictions and the non-completeness of merger discussions, we were not able to determine the effect on the subsidiary's net assets reported in the condensed consolidated interim financial statements as a result of restrictions referred to above at the date of the interim financial statements, and we were not able to perform alternative procedures with this respect.

Qualified Conclusion

Except for the effect of the matter described in the basis of qualified conclusion paragraph, and based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed consolidated interim financial statements do not present fairly, in all material respects, the condensed consolidated interim financial position of the Group as at June 30, 2015 , and of its condensed consolidated interim financial performance and its condensed consolidated interim cash flows for the six months then ended in accordance with Egyptian Accounting Standard no. (30) "Interim Financial Reporting".

Other matter

We draw attention to note (10) of the accompanying condensed consolidated interim financial statements which describes in more details that according to management's best estimate, and in light of the available information, there are no differences between the tax basis and accounting basis of the recognized assets and liabilities related to the Group's subsidiary in North Korea (Koryolink) that may result in the recognition of any deferred tax assets or liabilities at June 30, 2015. Management believes that in case any additional information develops in future periods that would give rise to such differences on the assets or liabilities recognized in the condensed consolidated interim financial statements as of June 30, 2015, management would revise its estimates, and recognition of deferred taxes associated with those assets and liabilities might be required.

Our conclusion on the accompanying condensed consolidated interim financial statements as of June 30, 2015 is not qualified in respect to this matter.

1- General information about Parent of the Group

a- Legal Status

Orascom Telecom Media and Technology Holding S.A.E "the Company" is an Egyptian Joint Stock Company pursuant to the provisions of the Capital Market Law No. 95 of 1992 and its executive regulations. The Company was registered at Cairo Commercial Register on November 29, 2011 under No. 394061. The Company's Head Office located at Nile City Towers, Ramlet Boulak, Cairo, Egypt. The Company's duration is 25 years starting from November 29, 2011.

b- Purpose of the Company

The Company's purpose is to participate in establishing the joint stock and limited liability Companies that issue securities or to increase its share capital of these companies, and considering the provisions of Article 127 of the executive regulations and the regulations of the Capital Market Law. The Company may have interest or participate, by any mean, in companies and other enterprises that have activities similar to those of the Company or those that may assist the Company to achieve its objectives in Egypt or abroad. It may also merge into those companies and enterprises purchase them or affiliate them pursuant to the provisions of the law and its executive regulations.

c- Brief over the incorporation of the Company

The Company was established as a result of legal demerger from Orascom Telecom Holding S.A.E as part of the VimpelCom transaction. In October 2010, VimpelCom Ltd and Wind Telecom announced that both groups had signed a merger agreement, and where Wind Telecom (previously Wind Investment) owns 51.7% of shares of Orascom Telecom Holding SAE – OTH. On April 14, 2011 the demerger plan was concluded, in order to transfer certain assets to the demerged Company that are not intended to form part of the VimpelCom – Wind Telecom group going forward. Those assets represent mainly OTH investments in the Egyptian Company for Mobile Services, CHEO Technology in North Korea, Orascom Telecom Ventures SAE, as well as other investments in the media and technology sectors, including undersea cable assets.

Accordingly the demerger plan provided that the split of OTH will be executed by way of legal demerger, and the incorporation of Orascom Telecom, Media and Technology Holding S.A.E - OTMT (demerged Company), which will acquire the investments excluded from the transaction. The demerger resulted in existing shareholders of OTH holding the same percentage interest in OTMT as they hold in OTH as of the execution date of the demerger.

2- Statement of compliance

The condensed consolidated interim financial statements have been prepared in accordance with the Egyptian Accounting Standard No. (30) "Interim Financial Reporting". As permitted by EAS (30), condensed consolidated interim financial statements do not include all of the information required for the full annual financial statements, and should be read in conjunction with the consolidated financial statements for the year ended December 31, 2014.

The Egyptian Accounting Standards require referral to International Financial Reporting Standards "IFRS" for certain types of transactions or events when no Egyptian Accounting Standard or legal requirement exists to address treatment for these transactions or events.

3- Basis for preparation of condensed consolidated interim financial statements

The condensed consolidated interim financial statements of the Group incorporate the financial statements of the Company (Parent) and entities controlled by the company (its Subsidiaries) as of the balance sheet date. Control is achieved where the Group has the power to govern the financial and operating policies of an investee so as to obtain benefits from its activities.

The results of subsidiaries acquired or disposed of during the period are included in the consolidated income statement from the effective date of acquisition or up to the effective date of disposal, as appropriate.

Where necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with those used by other members of the Group. All intra-group transactions, balances, income and expenses are eliminated in full on consolidation.

Non-controlling interests in the net assets (excluding goodwill) of consolidated subsidiaries are identified separately from the Group's equity therein. Non-controlling interests consist of the amount of those interests at the date of the original business combination and their share of changes in equity since the date of the combination. Losses applicable to owners of the non-controlling interests in excess of their interest in the subsidiary's equity are allocated against the interests of the Group except to the extent that owners of the non-controlling interests have a binding obligation and are able to make an additional investment to cover the losses.

A) Basis of measurement

The consolidated financial statements are prepared on the historical cost convention, except for financial derivatives that are measured at fair value, and financial instruments at fair value through profit or loss. The historical cost depends mainly on the fair value of the consideration transferred to obtain assets.

B) Presentation currency

These consolidated financial statements are presented in Egyptian pounds, which is the Company's functional currency. All financial information presented in Egyptian pounds has been rounded to the nearest thousand except for earnings per share for the year / period, unless otherwise stated in the consolidated financial statements or notes.

C) Critical accounting judgments and key sources of uncertainty estimates

Preparation of the condensed consolidated interim financial statements and application of the Group's accounting policies referred to in note (4) below, according to the Egyptian accounting standards, requires management to make judgments, estimates and assumptions about the presentation of these statements and about the carrying amounts of assets and liabilities that are not readily apparent from other sources.

Those estimates and associated assumptions are based on management historical experience and other factors that are considered relevant under current circumstances and conditions in which carrying amounts of assets and liabilities are determined. Actual results may differ from these estimates significantly if surrounding conditions and factors changed. The estimates and underlying assumptions are reviewed on an ongoing basis.

Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

4- Significant accounting policies

The accounting policies adopted for the preparation of the condensed consolidated interim financial information are consistent with those used in the consolidated financial statements as of December 31, 2014. The accounting policies have been consistently applied to all the periods presented.

It is worth mentioning that the Group's activities are not subject significant seasonal or periodical changes.

Commitments related to property and equipment	307,919	17 501
Other commitments	195,474	199 788
Total	503,393	**217 289**

Capital commitments arise from the commitments of the Group to acquire items of fixed assets related to the marine cables by Middle East and North Africa for Sea Cables Company and Trans World Associates (subsidiaries). In addition to the capital commitments of Koryolink related to telecommunication networks.

The increase in capital commitments is due to the assets related to marine cables of Trans World Associates, as for other commitments the increase is due to the foreign currency exchanges differences resulted from translation of these commitments from its foreign currency to Egyptian currency (presentation currency).

21- Contingent Liabilities

The contingent liabilities are represented in guarantees issued by the Holding Company and related to the activities of its subsidiaries, as follows:

Orascom Telecom, Media and Technology Holding

- A Letter of guarantee in favour of Lebanon Ministry of Telecommunication to guarantee Orascom Telecom Lebanon in the payment of any amount due by the selected participants amounting to USD 40 million.
- A guarantee was issued in favour of one of the governmental authorities amounting to EGP 5 723 thousand to guarantee O Capital for Energy (under incorporation), and the guarantee expires in May 2016.

Trans World Associates (Subsidiary)

- A bank guarantee was issued in favour of Link Dot Net amounting to USD 4 772 thousand equivalent to EGP 36 409 thousand and the guarantee is validated to July 23, 2015.
- A bank guarantee was issued in favour of Pakistan Educational Authority amounting to Rupees 2.2 million equivalent to EGP 162 thousand and the guarantee is validated to December 31, 2015.
- A bank guarantee was issued in favour of Punjab Information Technology amounting to Rupees 3 169 million equivalent to EGP 233 thousand and the guarantee is validated to November 28, 2015.

Middle East and North Africa for Sea Cables – MENA cables (Subsidiary)

- A guarantee was issued in favour of one of the subsidiary's clients amounting to USD 82 million to guarantee the subsidiary to fulfil its contractual obligations represented in performing the contracted services.

22- Group's activities in North Korea

The Groups operations in North Korea relate primarily to the 75% holding in the local telecom operator Koryolink. North Korea is subject to international sanctions imposed by the international community, European Union and the United States, as well as by the United Nations. These sanctions have the effect of restricting financial transactions and the import and export of goods and services, including goods and services required to operate, maintain and develop mobile networks. Whilst these sanctions do not currently have a material impact on the operations of Koryolink, as it is a domestic mobile operator with minimal foreign interaction, there can be no assurance that if international sanctions are subject to enhanced enforcement, the Parent Company's operating subsidiary in North Korea will be able to finance its operations, transfer funds to and from the Parent Company or operate its mobile network. This could adversely affect the Group's investments, if the Group becomes unable to continue to operate its business in North Korea.

In addition to the aforementioned, the exchange of local currency into foreign currencies in North Korea is subject to currency control restrictions implemented by the Governmental authorities. Additionally the local currency of North Korea is not tradable outside the country, which results in severed long-term restrictions on transfer of the subsidiary's realized profits.

The net assets of Koryolink (subsidiary) reached EGP 6,345 millions of the Group's consolidated net assets amounting to EGP 8,851 millions as of June 30, 2015. Koryolink's assets also include cash balances in North Korean currency equivalent to EGP 4,982 million and are reported within non-current financial assets in the consolidated interim financial statements due to the restrictions imposed on cash transfers as mentioned above.

The interim financial statements of the subsidiary were translated using the official exchange rate announced by North Korean banks as at June 30, 2015 and which is determined by the Central Bank of North Korea, noting that there is no free-floating currency exchange market in North Korea. The management of the Group has no evidence indicating that the change in the exchange rate of the Korean currency may affect the assets of the subsidiary Company as reported in the condensed consolidated interim financial statements.

For consolidation purposes and as guided by EAS 13 "The Effects of Changes in Foreign Exchange Rates", the interim financial statements of the subsidiary Company "Koryolink" were translated into EGP using the official exchange rate announced by the Central bank of North Korea as no other rate is available to the subsidiary.

In light of the restrictions, financial and operating difficulties facing Koryolink due to the international sanction referred to above which resulted in severed long-term restrictions on transfer of the subsidiary's realized profits, the absence of a free-floating currency exchange market, and launching a competing local telecom operator owned by the North Korean Government, a shareholder in the subsidiary. In the management's view the existence of such obstacles and restrictions didn't affect the Group's ability to control the subsidiary's activities, in addition management is looking for solutions to the obstacles and its effect through continuing discussions with the Korean party and searched and suggested a range of solutions including performing a merge transaction between the two networks, which may lead to removing some obstacles faced by Koryolink. Whereas the Korean party initially agreed, in principle, upon the suggested solutions, the discussions are still ongoing by both parties to reach an initial agreement or other alternatives, which may help Koryolink in its operating activities.

23- Approval of the condensed consolidated interim financial Statements

The condensed consolidated interim financial statements of the Group for the six months ended June 30, 2015 were approved by the Board of Directors on August 12, 2015.
